## EDUCATION

<b>Silicon University</b> Bachelor of Technology   Computer Science & Engineering	Bhubaneswar, India 2022 - 2026
<b>Kendriya Vidyalaya Sangathan</b> Secondary & Higher Secondary	Cuttack, India 2010 - 2022

## TRAININGS

<b>CodeBeat Placement</b> MERN Stack Developer	June 2024 - July 2024
<ul style="list-style-type: none"><li>Built a feature-rich e-commerce platform with JWT authentication, product CRUD, and cart functionality using MERN.</li><li>Designed and executed scalable RESTful APIs, integrating them with a dynamic React.js front-end, improving real-time user interactions.</li><li>Handled application state with Redux and Context API to optimize performance and scalability.</li></ul>	
<b>Ingenious-Tech World</b> AWS Cloud Engineer	July 2023 - August 2023
<ul style="list-style-type: none"><li>Created VPCs with subnets, route tables, internet/NAT gateways for secure network architecture.</li><li>Configured Auto Scaling Groups and Application Load Balancers (ALB) to enable dynamic scaling and distribute traffic efficiently across EC2 instances, ensuring high availability and fault tolerance.</li><li>Managed IAM roles, enabled MFA, and configured CloudWatch alerts for secure and reliable deployments.</li></ul>	

## SKILLS

- **Services & Platforms:** AWS (EC2, S3, CloudWatch, Auto Scaling Groups, Load Balancers, VPC), MongoDB Atlas, Docker, Kubernetes.
- **Programming Languages and Frameworks:** C, Java, HTML, CSS, Javascript.
- **Frameworks & Libraries:** React.js, Node.js, Express.js, MongoDB.
- **Tools / Platforms:** GitHub, VS Code, Postman.

## PROJECTS

<b>InvoGen – AI Powered Invoice Generation Platform</b>	🔗 Live Demo
<ul style="list-style-type: none"><li>Developed a full-stack AI-powered invoicing platform using <b>React.js, Node.js, Express.js, MongoDB,</b> and <b>Google Gemini AI</b> to automate and simplify invoice creation workflows.</li><li>Implemented <b>intelligent Invoice generation from text, emails, or receipts</b> leveraging AI for professional invoices.</li><li>Enabled users to gain personalized AI-powered insights and analytics tailored to their own business finances and invoice data.</li><li>Designed and built a responsive user dashboard featuring <b>invoice management, payment tracking, AI generated Reminder.</b></li><li>Delivered seamless user experience enabling easy invoice generation, management, and sharing via printable and downloadable formats.</li></ul>	
<b>DocMate – Doctor Appointment Booking System</b>	🔗 Live Demo
<ul style="list-style-type: none"><li>Developed a full-stack application using <b>React.js, Node.js, Express.js, and MongoDB</b> to streamline healthcare appointment workflows</li><li>Integrated <b>role-based authentication</b> and <b>access control</b> for <b>Patients, Doctors, and Admins</b></li><li>Enabled <b>CRUD operations</b> for users, doctors, and appointments across all roles</li><li>Built <b>responsive dashboards</b> and interfaces using <b>React Router</b> and <b>Tailwind CSS</b></li><li>Added features like doctor availability toggling, appointment status updates, and admin-level management.</li></ul>
